10분이 넘는 그 노래에서
내가 좋아하는 부분은 단 15초였다
한 시간동안 내내 들어도
그 순간은 여섯 번밖에 찾아오지 않는다
The song lasted 10 minutes, yet my favorite part was only for 15 seconds.
Listening to it for a full hour gives me only six chances to hear my favorite part.
1000 years in your eyes
천년도 당신 눈에는
The title is a run-on sentence which is a part of a poem, (the [illegible] is [illegible]) so it's [illegible] to [illegible] it properly to reflect its full meaning.

*천년 천년도 당신 눈에는 지나간 어제 같고 다경의 한 때와도 같습니다
당신께서 그들을 쓸어내시면 그들은 아침잠과도 같이 사라져가는 풀과도 같습니다
(시편 90편 4-5절)

How did you find me?!
I am an adult. You moved only two blocks. Of course, I can find you.

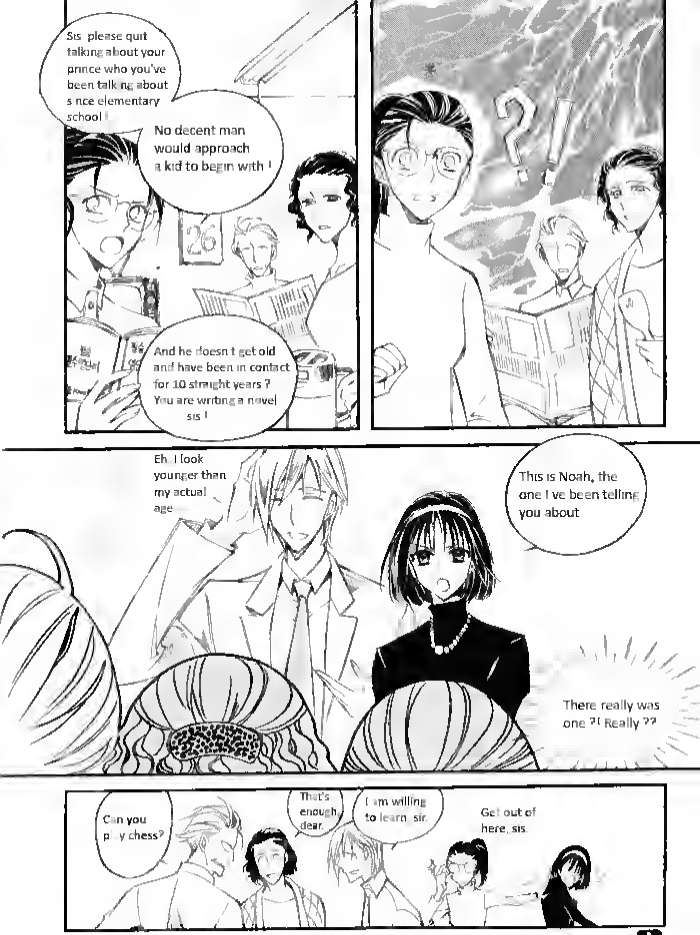
, so she got scolded by the teacher
They say bad people gather there at n ght drinking, smelling bonds
Liquor and other stuff in trash cans
Don t ever go there at night !
What do you take me for ? I am not a fno!
By any chance
Are you Siah ?

Snow went into your mouth !
I untied my hair
Yeah, so it seems
And I have to cut it by next week Teacher's order
What ?! Who in the right mind would make anyone do that ?!
He says high school girls with long hair make them look like whores at bars
I feel that it is your teacher is a perv to begin with
I guess you won't like a little girl with short hair ?
No I won't

So
Once you reach the age where no one can tell you what to do
Let's get married.
I...
I will think about it

I said, I will think about it !
응 앙

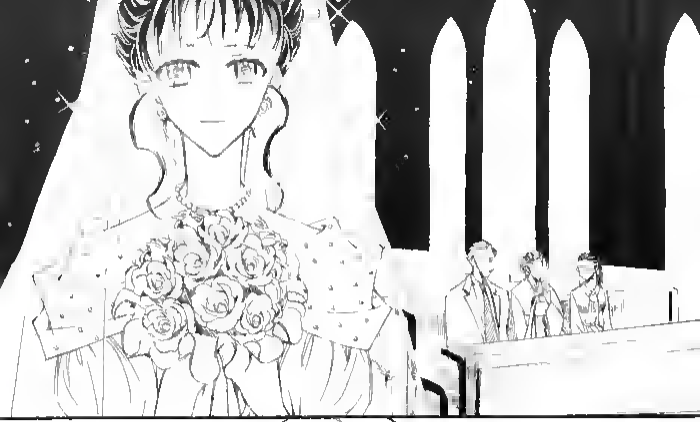
I haven't said yes yet !
You don't need to play hard to get if you don't want to.



Sis please quit talking about your prince who you've been talking about since elementary school !
No decent man would approach a kid to begin with !
And he doesn't get old and have been in contact for 10 straight years ? You are writing a novel sis !
?!
Eh, I look younger than my actual age
This is Noah, the one I've been telling you about
There really was one ?! Really ??
Can you play chess?
That's enough dear
I am willing to learn sir.
Get out of here, sis.

They gave you a hard time, didn t they ?
No they were all very interesting
And they are your parents.
They d be the ones who gave me the chance to alter my life forever
I know it's weird to ask this now but
Why do you like me ?
Really ? You ask me that now ?
Yeah ! It took me this many years to come up with enough courage to ask !

Well ?
You are a crybaby...
I mean you cry a lot
And you seem a
little clumsy and
a l ttle dumb
Eh
But you can t
lie.. Even if you
do it's easy to
tell..
Um
I could not get
you out of my
head even when
you were right
in front of me
But the more I get
to know you and
meet
I felt that perhaps
this was decided
even before I saw
you



JANIMES.COM

I could reach you within 10 steps from anywhere
That can work both ways, you know ?

So good !
Maybe, this is my hidden talent ?

I am home
Why are you passed out ?
It took me a whole day to prepare dinner
I saw Mom cook various things at once but I couldn t do that, so I cooked one thing at a time and t took this long to prepare
Mom s a pro
That must be way the air s so steamy
Let's take a walk after dinner
No, don't wanna
Ice cream

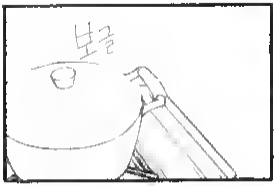
Wow
Why does staring at the sky remind me of old days ?
Maybe because it doesn't change ?
It doesn't change it s the same still sky from my childhood

* Public bath house

Of course, I am doing well
It wasn't just you who weren't called. Only our families attended.
Heran wants to see you
Yeah ?
I don't want to show you to other girls though
I don't want to show you to anyone. And I don't want anyone to approach you.
I wish you could be with me all day long

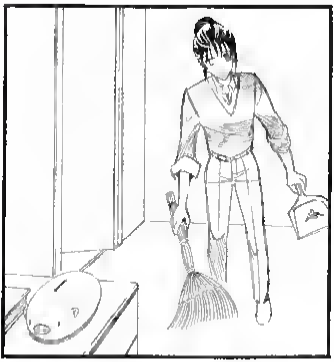
Here Noah
Hello, nice to meet you
Nice to meet you
I have no idea that there are two places with the same name
We wasted 30 minutes
I wish there were cell phones.
What are you saying ? Who'd want to carry those heavy things around ?
Yes
That was foolish of me

What...
Have I done...
* sob
* sob



Are you back ?
Yeah, it's me

You missed me that much ?
If somebody sees us, he w ll think that we reunited after like 10 years



우 진
라서

Incomplete sweater ?

Yes
it was last year
I told h m that I could finally sew him a handmade sweater

It s almost complete. Why didn t I finish it ?

?

It's 9 o'clock. It's closed.
The road's jammed.
You should have come earlier !
Sorry.
It's not like missing our anniversary is the end of world.
JANIMES.COM
It's neither rain nor snow !
You find this funny ?!
하하하

Let's drive by a river and go home I will cook
Super special ramen !
Should have guessed
Wow, they are flying very low today
Hello
Ah, hello
You be careful too
Yes ?
Apartment # 136 was robbed
Another case ? There was a robby last month

If a robber breaks in, I should run this... Wait, wouldn't that put me in more danger? What if a robber does break in?
No, that is not what you are really afraid of.
What you are really afraid is that no one is ever going to come through that door.

It's pretty...
I think I am too happy.
So am I
By the way...
We shouldn't be happy
Because I killed you.

My family
And friends told me
That I was cheated.
They said I ddin't know your real name
They said I've never been to the place you work and our marriage I cense never got through
They said I was a fool
Heran said she saw you with another woman and that she is your real wife

but –
How did you return ?

The reason I can be here is quite simple
Because I am not dead.
Why I am not dead is more complicated though
All this is just a dream. We are in a dream

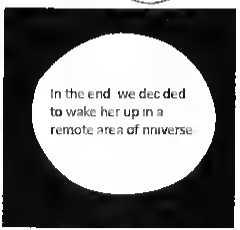
To put it simply, there are holes in universe. And there are more holes outside of universe.
Noah ?
What are you talking about ?
Because of the size of universe, the chances of two holes colliding is extremely small.
And two holes colliding right above a planet is even smaller.
But it did happen. A long time ago, two time holes collided right above a young girl.
Wise beings predicted it and sealed her in exchange of destroying Earth.
Why sacrifice a whole planet to keep the girl alive ?
Because such an extremely rare phenomenon placed the girl in a different time spectrum with a different concept of time.

Her time is slow
Too slow
She blinks her eyes
and a hundred years
of our time will pass
Is this your
first time seeing
her,
mbassador ?
This is "Slah"

If anyone enters her time zone, organic beings will age so fast that they w ll just be bones in less than a second
Technically, she is capable of expiring our whole universe.
She is not something we should even bother with but there have been numerous people who wanted to turn her into a weapon for past generations
She basically is a very mean independent clock in the universe

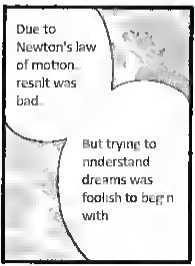
Ambassador, yonr ancestors managed to save the nniverse, but they also left ns a very dangerous relic.
As you probably know we hnmans can no longer confine her
That rises one question How do we lell her ?

We d-d inject her with lethal poison but when will that start to work on her ? 1000 years? More ?



In the end we dec ded to wake her up in a remote area of nniverse

The issue is how to wake her up
Yonr ancestors left many dev ces wh le sealing her, and we had chances to expenmenting our options with yonr devices
One of the experiments was approaching her through a dream



Due to Newton's law of motion.. resnlt was bad..
But trying to nnderstand dreams was foolish to begn with

We have no idea how but somehow we managed to bring her into one of our arhficial dream channel

Was born for the sole purpose of waking you up
Without having given choices, I grew up looking at you
I wanted to let you know how I've been feeling
How it feels like to hate someone who you've been programmed to love

But now I simply don't care anything anymore
Just forget everything
Just enter another dream channel. It will be like having a different dream all of a sudden. Quite simple really
Noah !
Don't go !

Noah !
We simulated an era she used to live
Though there are some errors.
I saw the simulated reality Why did I see battleships in the sky ?
Oh..I added that for fun
I used to see those ships all the time when I was a kid.
Ha ?

It is done
The plan failed
It is time for me to disconnect
I wish you luck
The time you've been with her is like less than a second to her
More like 0.0000000001 second. Probably even less
When I found out about her existence I was utterly shocked. The two grand wars that devastated human ty to near total annihilation
All the years we've tried to rebuild our selves, all that was just a blinking to her.

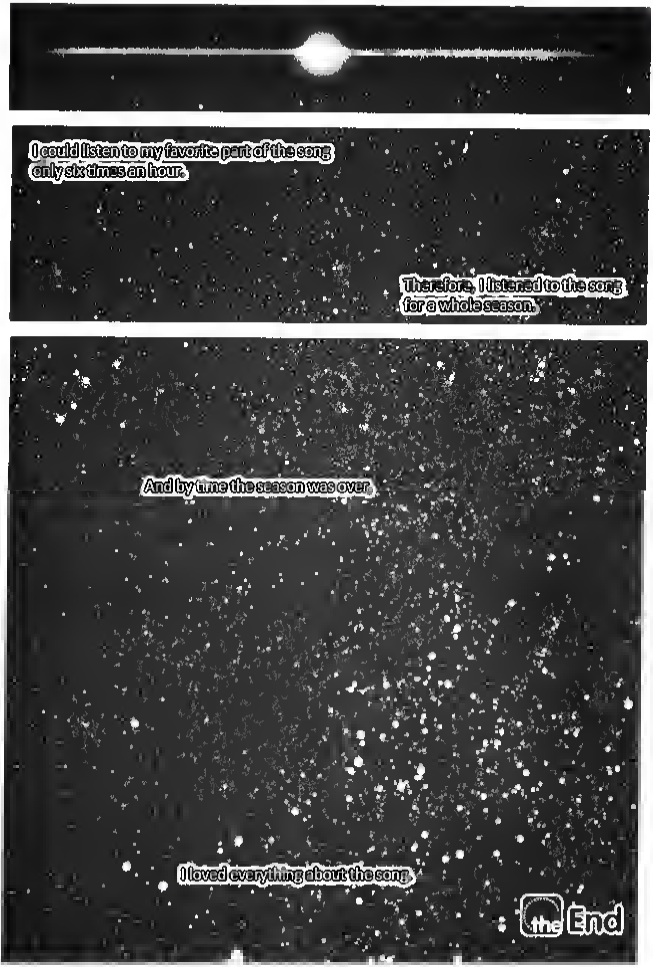
Bas cally whatever we do is
Nothing more than some bugs trying to disturb the supreme being
I wonder
Why did you not run away from the mission ?
You claim you wanted your ravenge ?
No __ I think you have the same motive as I do

After I realized her existence,
I resented her, but at
the same time ...
I wanted to dare
play with time.
I wanted to manipulate
what only God can.
Am I wrong ?

The fate between you and her is artificial.
But nevertheless, it's fate.
You've done your part, so now I will reward you
I am not a medical doctor, I can't give you any anesthesia
I will make you so that you will last few hundred years
The only problme is that it is hundred years in our time spectrum

How can I believe you ?
When you are supposed to be dead
Then I will go see you
I will
Wake up from this dream

Such faction of time.
I reckon
to
with
time
so.



I could listen to my favorite part of the song only six times an hour.
Therefore, I listened to the song for a whole season.
And by time the season was over,
I loved everything about the song.
the End

[천년도 당산 눈에는] 주변생의 이야기

전 원래 나이차 있는 커플을
주로 그리는 편이라서 받아든 주제기 잠 새삼스럽더라구요
그래서 생각했죠 그래 난 나이차가 900년 정도 있는 커플을 그리지
이에 담장님께서 시적으로 표현하시길
지구가 지전하는 소리는 너무 커서 이무도 듣지 못한다는 것처럼
나이지기 너무 찬문학적이라서 전혀 연상언하 커플이란 느낌이 인 들어요
그래도 콘티가 어떻게든 OK되어서 지금 후기를 쓰고 있습니다
소재기 어린 탓으로 이런저런 설정이 많았지민
언출삼+페이지효율상 생략하는 편이 좋다고 결정해
대부분의 설명을 빼버렸기 때문에 그냥 느낌으로 즐겨주세요^^

Above is the author s (The author of Ciel) words, note Rough translation

I tend to draw couples with some age differences so when I was given the project, it was refreshing to try so I thought, Well, let me try a couple with like 900 years old age difference ' My idea wasn't met pos tively, but it was given an okay from higher up so I drew this.

The story is actually a lot much longer than what you see here, but due to page limitations, many parts had to be omitted, so just enjoy what you see
